Venlub Petro Products (P) Ltd.

Venlub Petro Products (P) Ltd, was founded by Late Mr. D. Dhanasekar in the year 1996. We have been in the business of Manufacturing and Marketing of Petroleum products and Industrial Lubricants for over 20 years now .We are a young enterprising Company with a passion to excel.

Venlub manufactures a wide range of Industrial / Automotive and Speciality Lubricants. We are a company driven by passion and hard work. We assure our clients the best quality products.

At Venlub, we are constantly involved in research and development. We are open to any modifications in our product line, and manufacture the product to meet our client's specifications. All our products are manufactured using the highest quality Base Oils and additives.

Our comprehensive range comprising of more than 150 Grades includes Hydraulic Oils, Gear Oils, Compressor Oils, Long Life Turbine Oils, Cylinder Oils, Refrigeration Oils, Metal Working Fluids, Marine oils, Wire Drawing Compounds, Automotive Engine Oils, Gear Oils, Transmission Fluids, Rust Preventive Oils, Quenching Oils, Thermic Fluids, Industrial and Automotive Greases, etc. and other speciality industrial oils for specific applications meeting the latest BIS and International Standard specifications. These Lubricants are manufactured utilizing advanced technology Hydro - treated and Hydro - cracked base oils, which give distinct advantage in performance over the similar products made utilizing conventional base oils.

Venlub is committed to providing a safe and healthy workplace. We make sure that our employees, associates and contractors return home from work safely each day. We are committed to ensuring zero harm to our employees, associates and contractors.

Our Vision

To Be A Global Leader In The Industrial & Automotive Lubricants Industry.

Our Mission

To Innovate & Develop High Performance Oils Therby Reducing Usage And Conserving Oil.

Industry Segments

- ★ Agriculture
- ★ Automotive & Transportation
- ★ Auto OEMs & Engineering
- ★ Cement
- ★ Chemicals & Petro Chemicals
- ★ Steel & Construction
- ★ Food & Pharmaceuticals
- ★ Packaging
- ★ Power Sector
- ★ Rubber
- ★ Textile

Hydraulic & Machine Oils

All VENLUB Hydraulic Oils are formulated using highly refined base stocks with selected anti oxidant, anti-wear & anti-rust packages.

► General Purpose Machinery Oils

VENLUB MACHINOL oils are general purpose machinery oils confirming to the highest standards of reliability and safety. It maintains a thin film of oil under light and medium load conditions and ensures completed rust protection even during idle periods.

Available grades: 32,46,68,100,150,220,320& 460

► Superior Anti Wear Hydraulic Oils

VENLUB AW HYDROL oils are designed for systems where high level of anti wear protection is needed.

Available grades: 22,32,46,57,68,100 & 150

► Super Hydraulic HLP Oils

VENLUB HYDROL HLP oils are high performance premium grade hydraulic oils providing excellent lubrication, water separation and filtration characteristics.

Available grades: 15,22,32,46,68 & 100

► High Performance HVLP Oils

VENLUB HYDROL ULTIMATE 32,46 & 68 are latest generation anti-wear hydraulic oils that contain a special VI Improver to offer maximum resistance against shear and maintain high performance.

Industrial Gear Oils

VENLUB GEAR Oils are high performance industrial gear oils formulated using high quality paraffinic base oils and specially selected extreme pressure additives.

► Antiwear Gear Oils

VENLUB GEAR AW oils are designed for a system where high level anti wear & film strength is needed. They provide maximum protection to gearboxes made from non-ferrous metals.

Available grades: 220,320 & 460

► Premium Gear Oils

VENLUB GEAR EP oils are oils with carefully chosen sulphur phosphorous type additive package, which imparts excellent anti-wear and extreme pressure characteristics.

Available grades: 68,100,150,220,257,320,460 & 680

Spindle Oils

VENSPIN oils are low viscosity lubricants, blended from highly refined base oils having excellent oxidation and chemical stability, which are widely used in Spindle, Knitting, and Sewing Industries.

Available grades: 2,5,7,10,12,22

Metal Working & Cutting Oils

► Soluble Cutting Oils

All VENLUB Soluble Cutting Oils are manufactured from specially selected base stocks with superior performance additives, which offer a very stable emulsion.

VENLUB SOLCUT SS is a high quality conventional milky emulsion type general purpose soluble cutting oil which contains selected rust inhibitors for ensuring effective metal protection and new generation biocides to provide long emulsion life.

VENLUB SOLCUT SUPER has remarkable anti-rust characteristics coupled with high resistance to bacterial attack. These products are specially designed to offer extended sump life with better tool life.

VENLUB SYNTH CUT is a water-soluble Synthetic grinding coolant. This product has remarkable anti-rust characteristics, and is intended for grinding of cast iron & Ferrous metals to achieve high degree of surface finish.

► Neat Cutting Oils

VENLUB NEATCUT series are low viscosity, chlorine free neat cutting oils, which provide excellent surface finish to hardened steels and nickel alloys.

VENLUB NEATCUT NF series oils are high performance multipurpose neat cutting oils, blended from high VI base oils. These oils contain special additives & fatty material to provide effective machining performance in a wide variety of operations.

VENLUB NEATCUT PREMIUM series are neat cutting oils formulated from high quality refined mineral oils to ensure cost effective machining operations. These products are designed for light & moderate duty metal working operations.

Rust Preventive Oils

VENLUB RUST NIL Products are a range of industrial rust preventives formulated from premium base oils, solvents and internationally renowned additive packages.

VENLUB RUST NIL series are general purpose solvent based dry and non dry rust preventives which offer excellent corrosion protection.

VENLUB RUST NIL DW series are dewatering type rust preventives which Offer protection to steel metal components by forming a temporary oil film.

VENLUB RUST NIL ST series are superior solvent type rust preventive oils containing corrosion inhibitors and blend of highly refined base oils that offers protection to steel metal components by forming a temporary sticky oil film.

Transformer Oils

V-TRANOL range of transformer insulating oils are formulated using hydro cracked & hydro treated virgin mineral oils which offer superior performance and also prolongs the life of power equipments. Our product meets all international, national & regional transformer manufacturing requirements and standards.

Rubber Process Oils

VENLUB RPO range of Oils are used in Rubber Process Industries i.e. Manufacturing of Automobile Tyres, Retreaded Rubber etc. and also as ingredients in Conveyor Belts, Steam Hoses, Butyl Tubes manufacturing. RPO Oils are available in the following 3 base types: VENLUB RPO - AROMATIC, VENLUB RPO - PARAFINIC, VENLUB RPO - NAPTHANIC

Heat Transfer / Thermic Fluids

VENLUB THERM Series are premium quality mineral oil based heat transfer fluids formulated from best in class solvent refined base stocks.

Available grades: Venlub Therm 500 & Therm 600

Quenching Oils

VENLUB QUENCH oils are specially designed with high quality fatty material and additives along with premium paraffinic base stocks to provide good wetting characteristics and accelerated quenching rates.

Available grades: 7,11,32

Base Oils

VENLUB Base Oils belong to the Group II and Group II Plus variants and are procured from the best refineries across the globe. Venlub Base Oils consists of superior performance characteristics and very low aromatic content. We are one among the leading suppliers of Base oil in South India.
